Dual frequency antenna lets you see shallower as well as deeper targets.

Advanced GPS integration allows you to perform professional surveys.

New design and parts make it practically indestructible.

ALL THESE FEATURES IN THE MOST INTUITIVE GROUND PENETRATING RADAR EVER.

Opera Duo Features

Superior maneuverability

A large, comfortable handle to make pushing and pulling easier, large wheels for better control and a balanced weight distribution to offer the minimum resistance.

Robust

Engineered and built to withstand the harshest field conditions, the Opera Duo is suitable for heavy use in every type of terrain.

Easy to use

Opera Duo uses an intuitive interface. Just click the start button to receive the best performance in every soil condition. There is no longer a need to perform calibration or adjust any other manual settings.

Results delivered on site

IDS's proprietary solution tracks the position of the radar and marks targets automatically. All of the acquired data can be exported to CAD and a report can be produced directly on site.

Spray marker kit

Easy to transport, foldable trolley

Opera Duo Configuration

Pivoting head

provides better contact on uneven terrain and reduces signal loss

Remote controlled spray paint

in order to mark your findings

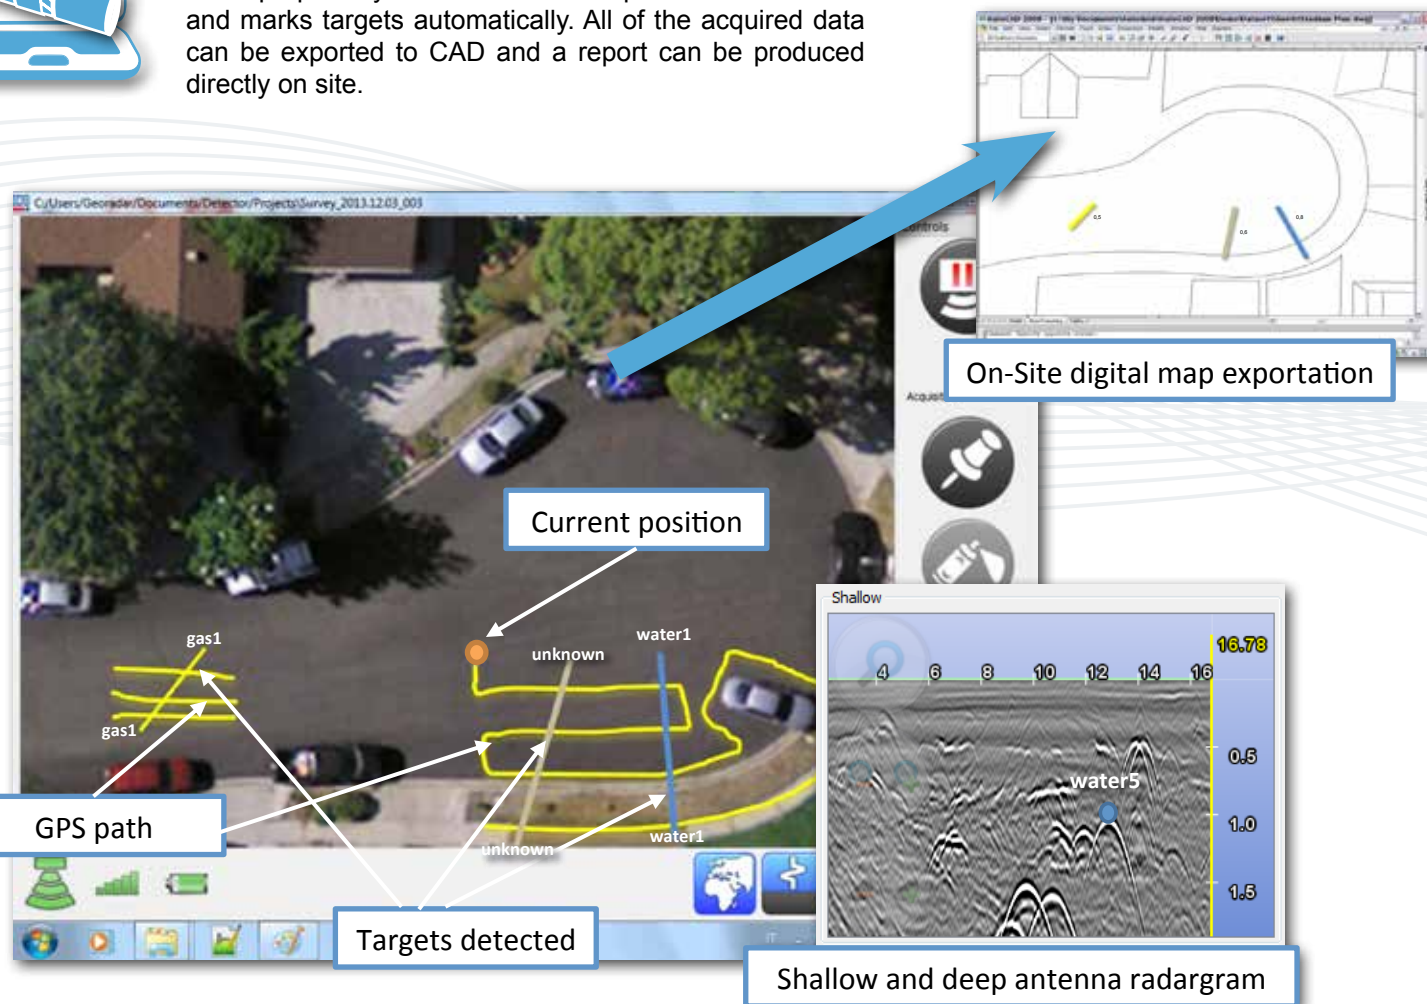

Dual-frequency antenna

to locate deep and shallow targets simultaneously

Adjustable handle always gives you the perfect grip

Dedicated pole mounted GPS kit

No exposed cables, providing peace of mind assurance of no ruptures in the field
